## BATTERY ACID RESTORATION CLEANER

FRONT 9  
RESTORATION  
The World's Best  
Restoration  
Cleaners

**EASY APPLICATION**  
No Scrubbing, Brushing  
or Long Dwell Times!

1 US GAL (3.785 L)

**WORKS ON:** Rust Stains, Orange Battery Acid Burn, Irrigation Rust Stains, Fertilizer Stains & More!

**COVERAGE:** One gallon of F9 BARC™ covers 400-800' of concrete using one application or 250-500' of concrete using two applications. Application rates will vary depending on the amount of staining, porosity of the concrete and if the concrete was sealed.

A natural phenomenon of concrete is the ability to see deeper into the cement when it is wet. Since battery acid burn can travel up to 2" deep and our product removes stains up to 1/2 inch deep, you may see residual orange staining when the concrete is wet. When it dries, the stains will disappear.

Proven effective on concrete, brick, pavers, stucco, pool deck coatings and various other substrates. On non-cement related substrates, mist substrate with water, apply product and rinse immediate after stain disappears. Always test a small area first to confirm compatibility.

**INSTRUCTIONS:**

1. **Pre-Cleaning:** Power wash concrete using a commercial grade pressure washer and surface cleaner.
2. **After initial pre-cleaning,** let the concrete dry completely.
3. **Apply F9 BARC™ through pump up sprayer liberally** and evenly to the entire pad of concrete. Do not "spot spray" first application.
4. **Let concrete dry.** Stains will disappear as concrete dries.
5. If spots remain, repeat steps 3 and 4.
6. A natural by-product of the reaction of this product and the concrete are light and dark mineral salts. Wet the concrete to reactivate the F9 cleaner. Agitate with broom and rinse LIGHTLY with pressure washer (NOT surface cleaner) to remove remaining salts.

**Includes:** The F9 COOKBOOK, One-Touch Support, Facebook Group Support, YouTube Videos & more!

**CAUTION: DANGER! HANDLING:** Avoid contact with aluminum, other metal surfaces and dilute with water when using on glass. **CAUSES SEVERE BURNS, MAY CAUSE PERMANENT EYE INJURY.** Do not get in eyes, on skin or on clothing. Avoid possible vapors. Always ensure adequate ventilation is available. Use of an acid vapor respirator may be necessary in enclosed areas. Wear goggles, protective gloves and protective clothing when handling. Do not inhale or swallow. Wash thoroughly after handling. Keep container closed. **CONTAINER ADVICE:** Keep closed to prevent leakage. Do not drop onto or slide across sharp objects. Replace closure after each withdrawal. Remove closure slowly to relieve possible internal pressure. Improper disposal or reuse of this container may be dangerous and illegal. Since emptied containers contain product residue, follow label warnings even after container is emptied. **FIRST AID: EXTERNAL:** Wash with water. **EYES:** Flush with water for 15 minutes. See physician immediately. **Internal:** Drink large quantities of water. Call physician immediately. **USER ASSUMES ALL RISK.** This product is sold with exclusions of all warranty, expressed or implied, statutory or otherwise. **KEEP OUT OF REACH OF CHILDREN. DO NOT FREEZE.**
