

TECHNICAL BULLETIN

Pro-Clean Alkaline Detergent

Description:

PRO-CLEAN detergent is a heavy duty alkaline truck wash detergent. It can be used as both a standalone detergent or used in conjunction with PRO-BRIGHT in a two step cleaning process.

PRO-CLEAN penetrates stubborn road film, bugs, and greasy soils and rinses easily

This product should not be used on polished aluminum.

Application:

PRO-CLEAN is a 2 part kit when blended makes up to 55 gallons of concentrate. First add the powder component to 50 gal of soft water and agitate for 2 minutes. Next add the liquid component and agitate for 2 minutes. Top mixture off to 55 gallons. Perform final agitation to ensure a homogenous mixture. This formula will go into solution quickly with minimal agitation. Final Dilutions will be determined based on application methods and soil conditions.
