

Magnum

by Nilfisk

The benchmark of the industry. All Diesel powered and heated for heavy-duty applications.

- 1** Vibration isolation technology provides smooth operation, preventing wear and tear on vital components.
- 2** Industrial General Pump, pull straight belt tensioning system with tri or quad belt design.
- 3** Water-cooled Kubota Diesel engines for proven performance in the most adverse conditions.
- 4** Marine grade, water separating Racor fuel filter protects against contaminated fuel.
- 5** 38 gallon rust free aluminum fuel tank is the largest in the industry, eliminating frequent re-fueling trips.
- 6** Rugged medical grade Stainless Steel panels and frame protects vital components and includes a Warranty for the life of the machine.
- 7** Premium Beckett 12V Powerlight or 115V oil fired burner system.

- 8** Magnum heating coil with 10-year Warranty. Threaded coil lock designed to withstand the rough terrain of remote area access roads.
- 9** Convenient pump and oil drains are within easy reach for scheduled preventative maintenance.
- 10** Each frame chassis has forklift access and dual balanced lifting points.
- 11** Frame mounted muffler via flex-coupler to prevent engine damage and rain cap to resist water intrusion.
- 12** Day/night dashboard featuring lighted fuel gage, operation indicator lights, key switch, burner and engine hour meters.
- 13** 115V models feature 2900 watt generator & GFCI protected receptacle to run optional accessories and water recycle system.
